DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Holl et al. Note Figures 3 and 4 as well as column 5, line 1 through column 6, line 19.

Claims 1-3 and 11-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Treinies et al. Note Figures 3 and 4 and column 2, lines 26-55.

Allowable Subject Matter

Claims 4-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references of Moyer et al, Bessler et al and Hasegawa et al are cited to show methods of operating engines using mass air flow.
